

AUTHORITY[®] ELITE HERBICIDE

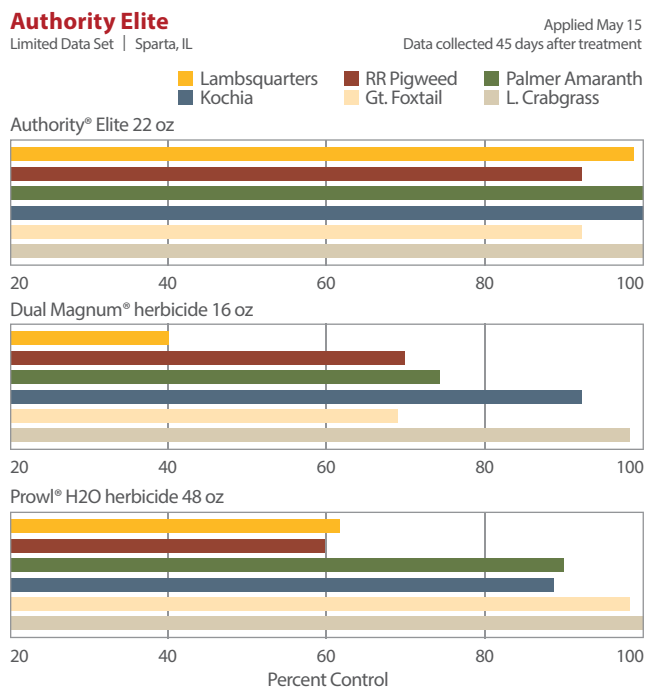

Control more broadleaf weeds and grasses and extend residual activity with Authority Elite.

Product Characteristics

- Broad-spectrum grass and broadleaf weed control in soybeans
- Apply as fall treatment, preplant, preplant incorporated or preemergence up to three days after planting
- Apply 30 days preplant up to three days after planting for in-season weed control
- Provides more flexibility in follow-up glyphosate application due to Elite herbicide's extended residual activity
- Can be combined with liquid fertilizer
- 45–60 days residual activity
- Two modes of action against tough and resistant weeds including waterhemp and amaranth
- Flexible formulation for easy mixing with other herbicides
- Very friendly crop rotation restrictions
- Amber liquid in 2.5 gallon jugs

Performance Data

Neither of the competitors (Dual Magnum[®] herbicide and Prowl[®] H2O herbicide) could match Authority Elite on control of lambsquarters, pigweed or amaranth — three economically significant weeds.
